## Calttő

## Classic and Cost-effective

## New Generation of Business Radio

www.caltta.com off-belt clip, classic knob layout, easy to operate.

Loud and Clear Voice
2W high-power speaker,combined with optimized sound cavity and MIC noise-reduction algorithm, can make loud and clear sound with maximum efficiency, ensuring clear communication in noisy environments.

Long Battery Life
Based on digital power-saving technology, the radio can last for 18 hours in the analog mode and 25 hours in the digital mode (5:5:90 traffic model), fully meet the continuous working requirements of the front-line users.

Digital and Analog compatibility
Support digital/analog mode, provide rich services such as short message, roaming, stun/revive, radio check, to help users work more efficiently.

Longer Communication Distance Carefully optimized RF circuit offers high Wreceiving sensitivity of 0.16 WV , combined with integrally formed helical antenna, it ac
longer-distance communication.
