Button Description

No.	Name	Function
1	Home key	In any interface, press the **Home** key to return to the standby interface.
2	Power key	• Press for seconds to phone mode menu. You can turn off the phone, restart the phone, turn on or off the airplane mode. • Press to switch your phone to Sleep mode.
3	Back key	Return to the previous interface.
4	Menu key	Enter the menu of the corresponding interface.
5	Multi-task key	Press to show up the latest running application.
6	Emergency call key	This key function is not supported by eChat APP.
7	Camera key	• In non-camera interface, long press to open the camera. • In camera interface, short press to shoot a picture.
8	PTT key	• When the terminal is in idle mode, you can press the **PTT** key to originate a PTT call. • When the terminal is being involved in a call, you can press the **PTT** key to request call right, or release the **PTT** key to release call right. • This key function is dependent on the PTT client.

Basic Use

Power on/Power off

• To power on or power off the mobile phone, press and hold the **Power** key.
• After power-on, the mobile phone automatically detects whether the UIM/(U)SIM card is inserted or available, and then displays the following prompt in the screen: Boot password; password required if enabled.

Standby Mode

After the UIM/(U)SIM card and mobile phone are successfully unlocked, the mobile phone can automatically search for an available network. After an available network is searched, the mobile phone enters Standby mode, and then you can originate or answer calls.

In the Standby mode, you can perform any of the following operations:
• Press the **Dial** key to enter the call log list.
• Press the **OK** key to enter the main menu.
• Press and hold the **0** key to enter "+".
• Press and hold the ***** key to lock the keyboard.
